

intergenerational

activities

### Title

**Children and elderly learning about each other**

### Season

All round year

### Time

10 to 15 minutes

### Target groups

Elderly from Care homes  
Children

### Objectives

Elderly and children to know each other

### Resources

Laminated pictures of bees (a circle of 8cm diameter) with a hole at the top  
Scissors  
String  
Black markers

### Description

Before the activity children make laminated bee pictures with a hole at the top. At the start of the activity children distribute the pictures to all the members of the group and they hang them round their necks. Children and seniors introduce themselves to each other and write their names on the labels.  
.. During the program that follows this means they all have their name tags hanging around their neck.

It is also possible to glue a safety pin to the back of the name tags instead of having a string.
